***Election/Restrictions***

The instant application comprises 14 independent claims, 7 of which are directed to an apparatus and 7 directed to a method.

A reasonable attempt was made to restrict the groups. The claims were grouped as follows;

Claims 1-5 are directed to a self service terminal;

Claims 6-8 are directed to a network;

Claims 9-12 are directed to a method of operating a cash machine;

Claim 13 and 14 are both directed to a method of operating a cash dispensing mechanism;

Claims 15-17 are directed to a cash dispensing network;

Claims 18-22 are directed to a banking system;

Claims 23-27 are directed to a an ATMs;

Claim 28 is directed to a transceiver;

Claim 29 s directed to a method of operating a self service terminal;

Claim 30-31 are directed to a self service terminal;

Claim 32 is directed to operating a self service terminal.

There are over 100 possible combinations for distinctness. Therefore this Section has been omitted. Moreover, the searches for the groups are not commensurate in scope.

Art Unit: 3624

1. A telephone call was made to M. Chan on 09/27/2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Respectfully

By, 

Richard C. Weisberger
